

## HB 711 -- Accessible Parking

Sponsor: Grisamore

Currently, any parking lot that is restriped or constructed must have one in every four accessible spaces served by an access aisle that is at least 96 inches wide and designated "lift van accessible only." This bill specifies that when any political subdivision or owner of private property restripes a parking lot or constructs a new parking lot with 25 or more parking spaces, the lot and accessible signs must meet the minimum requirements of the federal Americans with Disabilities Act for the number of required accessible parking spaces with at least one that is served by an access aisle at least 96 inches wide and designated "van accessible." If any accessible space is 132 inches wide or wider, the adjacent access aisle must be at least 60 inches wide. If any accessible space is less than 132 inches wide, the adjacent aisle must be at least 96 inches wide.

The bill contains an emergency clause.
